

6298 – Aluminium Laminate Ducting

This aluminium laminate ducting offers a great solution to air conditioning applications. Its body is made up of a laminated aluminium foil and woven polyester and is reinforced with a high tensile steel wire spiral. The hose is suitable up to temperatures of +125°C and max air velocities of 30M / Sec.

Fire resistant to BS 476 Part 6, 7 & 20.

Technical Specifications

Body	Laminated aluminium foil and woven polyester
Reinforcement	High tensile steel wire spiral
Temperature Range	-30°C to +125°C
Application	Air conditioning
