

8754 – Neoprene Rubber Fuel Hose

This unreinforced neoprene rubber hose is durable, super flexible and versatile.

It is suitable for a range of applications including the of transfer fuels and E10 fuels (10% Ethanol).

It is also has a wide range of Chemical Resistance. Can be used in industrial and automotive environments

Technical Specifications

Tube	Extruded Smooth Black Neoprene Rubber
Reinforcement	Unreinforced
Temperature Range	-30°C to +100°C
Application	Industrial and automotive environments
Conforms To	ASTM D 2000 BS510, Hardness: 70+/-5 Specific Gravity: 1.2 Tensile Strength: 10Mpa Elongation: 350% Compression Set: <80% (22Hrs at 70°C) Heat Aging Test: 70hrs @ 100°C

Product Table

ID		OD	Weight	Length
mm	inch	mm	kg/m	Metres
3	1/8"	6	0.04	100
5	3/16"	8	0.04	100
6	1/4"	9	0.05	100
8	5/16"	12	0.07	100
10	3/8"	14	0.1	100
12.5	1/2"	17	0.2	100
16	5/8"	22.5	0.24	50
20	5/8"	26.5	0.28	50
25	1"	31.5	0.34	50
