

9033 - Silicone Automotive Heater Hose - Blue

This is manufactured from high quality silicone rubber, this hose provides great heat resistance which makes it suitable for many automotive applications including performance vehicles and commercial vehicle induction and cooling systems.

The tubing is a silicone rubber designed to withstand high temperatures with a range from -50° up to 180°C, these Straight Length Hose can be used to connect air intakes, superchargers, cold side turbo and intercooler connections.

Technical Specifications

Tube	Smooth Blue Silicone Rubber
Cover	Smooth Blue Silicone
Reinforcement	Knitted Polyester
Temperature Range	-55°C to +180°C
Safety Factor	4-6 x working pressure
Application	Radiator & hot water hose

Product Table

ID	ID	OD	Working Pressure	Burst Pressure	Bend Radius	Weight	Max Coil
mm	inch	mm	bar	psi	mm	kg/m	Metres
